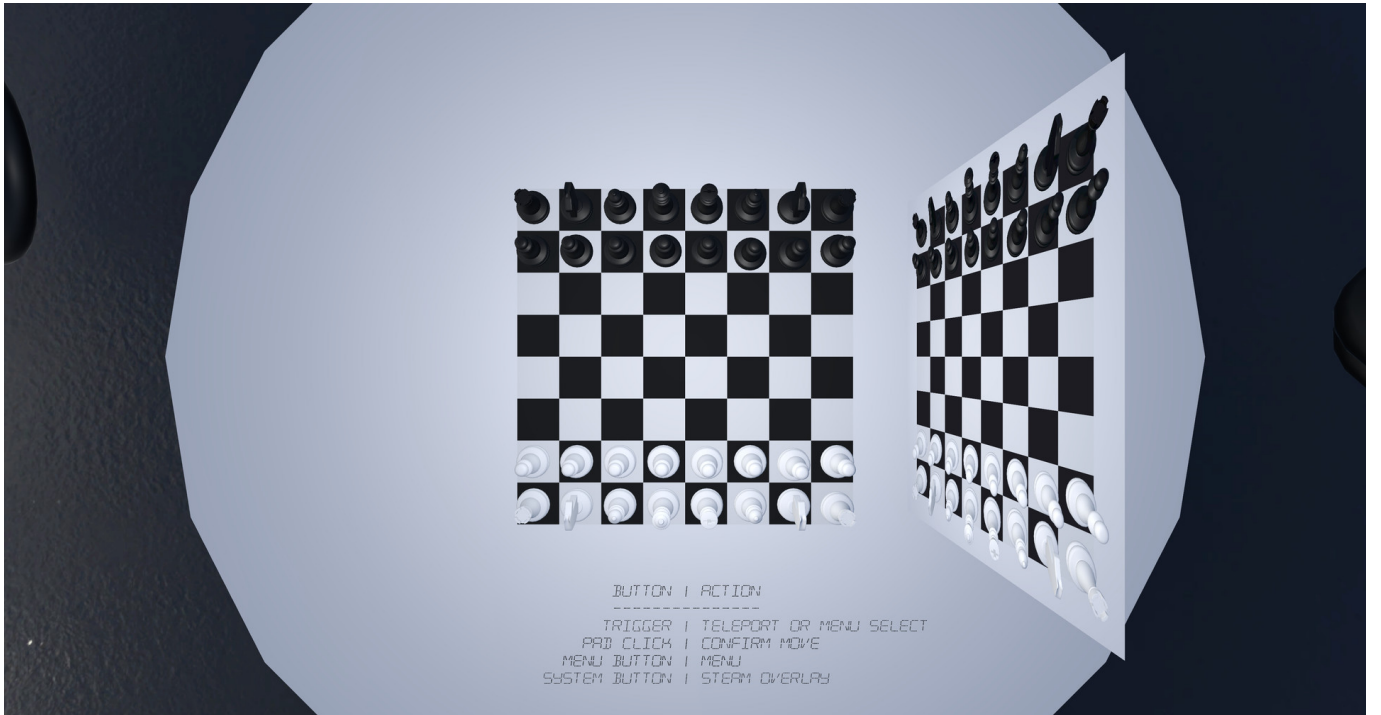

Graphics: Geforce GTX 770

Storage: 500 MB available space

English

Started off good, but its too easy to get stuck. If you do someting wrong, move out of turn, throw a piece off the board, make an illegal move, your just stuck there clicking every button hoping someting will change. no message, just stuck and forced to re-set. after a few re-sets, i had to bial.

Keep trying guys, I'm not going to ask for a refund (was only .99c) and hope that you improve the product.

Good luck.. Sure it can be buggy.....but its only a matter of time untill its bugless.....good game, great effort.. Started off good, but its too easy to get stuck.
